TECHNICAL SKILLS

Languages: Python, HTML5, CSS3, SQL, Markdown

Developer Tools: Vim, VSCode, Git, Zsh, Bash

Technologies/Frameworks: macOS, Linux, Flask, GitHub, Heroku, Jekyll, Bootstrap, SQLite, PostgreSQL

PROJECTS

Blogging Web App | *Python, Flask, Bootstrap, PostgreSQL, Heroku*

May 2021

- Built a web application using Flask and Bootstrap which allow users to register, publish, edit and delete posts.
- Stores user information in the back-end of the app and hashes the inputted password which is then stored into a PostgreSQL database.
- Deployed the web app to Heroku which serves all components of the application.

Personal Website | *Jekyll, GitHub Pages*

April 2021

- Started a personal website for posting book notes and articles about various topics.
- Used Jekyll to write posts in Markdown which gets transformed in HTML after deployment.
- Hosted on GitHub pages and learnt how to use Git for deploying.
- Visited by 10 users a month and people have gained value from the book notes and articles.

Item Availability Bot | *Python, BeautifulSoup*

March 2021

- Developed an automatic bot using Python and SMTPlib to email users when an item is back in stock.
- Implemented BeautifulSoup to parse the correct elements of the web page in order to interact with the HTML code.
- Retrieved data from web page elements created as instances through HTTP requests.
- Used by 5 people and forked to tailor for their needs.

EDUCATION

City and Islington College - Centre for Business, Arts and Technology
